PWD, Islamabad

ABOUT ME

Software Engineering student with strong knowledge of Object Oriented Programming (OOP), C++, and software development fundamentals, now building cross-platform mobile apps with Flutter and Dart. Passionate about learning new technologies and solving complex problems through logical and analytical thinking. Self-taught C programming and HTML during high school, demonstrating initiative and a commitment to continuous learning. Possesses strong requirements engineering, problem-solving, and teamwork skills, and is eager to contribute to real-world software development projects.
